Building Confidence with Feedback...

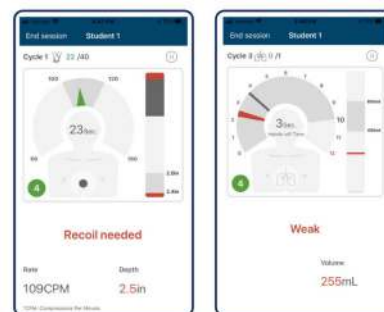

The PRESTAN CPR Training Manikins have provided a feedback mechanism since their inception. Today, we offer a full range of both CPR Training Manikins and AED Trainers with both visual and audible feedback helping students achieve the *confidence* and skills needed to perform high quality CPR.

All **PRESTAN Professional Manikins** and the **PRESTAN Ultralite Manikin with CPR Feedback** come equipped with a CPR Monitor that provides both visual and audible feedback to help students achieve the proper compression rate and depth.

The **PRESTAN Professional Adult Series 2000 Manikin** provides advanced feedback through the addition of a Bluetooth connection to the **PRESTAN CPR Feedback App** which monitors rate, depth, recoil, ventilation and hands-off time.

Both the **PRESTAN Professional AED Trainer PLUS** and the **PRESTAN AED Ultra Trainer** provide a realistic training experience with clear, confident voice instructions and easy-to-follow CPR coaching feedback.

Building Confidence with PRESTAN...

PRESTANAED Trainer Pad Sensing System

The **AEDTrainer Pad Sensing System** automatically detects when each AEDtrainer pad is placed on the manikin.

These high-quality AEDtrainer pads last for over 100 applications! The pad adhesive removes from and adheres well to any manikin on the market without leaving messy residue behind - no more damaged pads or cleaning adhesive off your manikins between sessions. Pad replacement is affordable and easy - just replace the pad, not the cord.

Programming runs through a sensor in the center of the pad's adhesive which simulates a live AED, allowing for a more realistic training experience. No remote control is necessary, although one is available for the Professional AEDTrainer PLUS if desired.
