

Build in plastic box

Specifications

Article number: 011-012-005
 Power Consumption: 230 V / 450 WATT
 Dimensions: 60 x 40 x 33 cm
 Weight: 21 kg

Plastic box 60 x 40 x 32,5 cm
 included

Accessories

013-014-027 Spare Cloth
 047-061-001 Plug on / off Remote Control

Phoenix Silkflame

The Phoenix Silkflame has been especially developed for use during firefighting exercises. The powerful ventilator is suitable for use in combination with high concentrations of training smoke. This silk flame is suitable for both vertical and horizontal use. Ideal for simulating more complex fires.

The flame cloth's rolling system is unique. The height of the flame is therefore adjustable between 0 and 200 cm. The LED lighting is easy to tilt, allowing for the most optimal result to be achieved with any flame height. All the metalwork consists of top quality stainless steel. The entire silk flame is built into a Euro norm case as standard. This results in high-level convenience for storage and transport purposes. Open the lid and start staging!
