Building Confidence with Feedback...

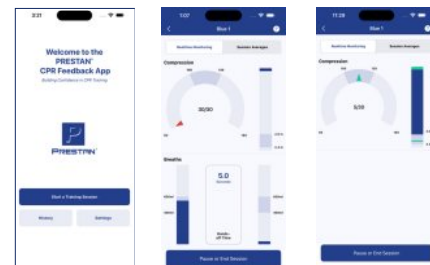

PRESTAN offers a full range of CPR Training Manikins and AED Trainers designed to meet the needs of all training environments - including **Portable**, **Professional**, and **Advanced** training scenarios. Whether an instructor is starting a new business or looking to upgrade their equipment, PRESTAN offers the most robust product offering in the market giving students the *confidence* and skills necessary to be ready for all lifesaving moments.

PRESTAN CPR Training Manikins have provided a feedback mechanism since their inception. All **PRESTAN Professional Manikins** and **PRESTAN Ultralite Manikins** come equipped with a CPR Monitor that provides both visual and audible feedback, helping students learn the proper compression rate and depth and allowing them to *build confidence* and skills needed to perform high quality CPR.

The **PRESTAN Professional Series 2000 Manikins** provides advanced feedback through the addition of a Bluetooth connection to the **PRESTAN CPR Feedback App** which monitors rate, depth, recoil, ventilation, hands-off time, and chest compression fraction.

The **PRESTAN Professional AED Trainer PLUS**, the **PRESTAN AED UltraTrainer**, and the **PRESTAN AED Raizor Trainer** provide a realistic training experience with clear, confident voice instructions and easy-to-follow CPR coaching feedback.

Building Confidence with PRESTAN...

PRESTAN is committed to *building confidence* in CPR/AED training instructors and their students.

PRESTAN offers a full range of CPR Training Manikins and AED Trainers which are intuitive, durable, cost-effective, and provide immediate feedback.

PRESTAN also offers a full range of Training Supplies and Accessories including replacement lung bag/face shields, stand-alone face shields, training face masks & adaptors, manikin clothing, and kneeling pads.

PRESTAN AED Trainer Pad Sensing System

The patented AED Trainer Pad Sensing System automatically detects when each AED trainer pad is placed on the manikin. New and improved AED Trainer Pads feature enhanced sensor performance for more reliable pad detection during training. Pads can now be inserted in either orientation for faster, easier replacement.

These high-quality pads last for over 100 applications. The upgraded adhesive adheres well to any manikin and removes cleanly without leaving residue—no more damaged pads or cleanup between sessions. Pad replacement remains simple and affordable—just replace the pad, not the cord.

Programming runs through a sensor in the center of the pad, simulating a live AED for a more realistic training experience. No remote control is necessary, although one is available for the Professional AED Trainer PLUS if desired.

Universal compatibility with both the PRESTAN Professional AED Trainer PLUS and the PRESTAN AED UltraTrainer.
